Placer Nature Center connects people and nature!

Hope to see you at our next event:

Fri. Sept 3, 2010 7:30pm-9:30 pm

[Fact, Fiction & Folklore: Fabulous Fungus! - First Friday Lecture Series](#)

at the **Old State Theater, downtown Auburn**

They come in all shapes, textures, colors and sizes; can be deadly toxic or life-saving medicine. Join Dr. Michael Davis for an inside look at how important mushrooms are as an integral part of a healthy ecosystem.

Doors open at 7pm with complimentary local produce samples from Foothill Farmer's Market growers.

Sat. Sept 11, Sat 11am-2pm

Meet an Oak - Friends & Family Day

at **Placer Nature Center**

You see them all around - but have you ever been up close and personal with an Oak? Oak woodlands provide food, water and shelter for approximately 350 species! They are also the basis of watersheds that protect drinking water for millions of Californians. Many activities with leaves, acorns and bark will help you know our local oaks.

Great for ages 4+; Nature Shop open. Free to members and children. General Public is \$5/adult.

Please consider the environment before printing this e-mail or any paper that can be electronically sent.

Raise money to help us connect people and nature the easy way! Simply use GoodSearch or shop online at all your favorite stores through GoodShop. Visit <http://www.goodsearch.com/toolbar/placer-nature-center>
