

Sacramento Chapter's Kids in Native Gardens Grant Application

Date:

Teacher or Garden Coordinator:

School:

City:

Phone Number (school or home):

Coordinator's Mailing Address (school or home):

How will California native plants be incorporated into your school garden and curriculum? (Use additional paper if necessary)

If awarded, what is most needed at your school to get a native plant garden started or keep it going*?

In what other ways can the Sacramento Chapter help you reach your goals?

*Once awarded, the \$100 grant money will be reimbursed from receipts. We will be glad to visit your school after the plants are growing to discuss with the students "fun facts" about their plants.

- Include a drawing or photos of the garden showing where California native seeds or plants will be placed;
- A letter of support on school letterhead from the school principal.

Apply anytime. Applications reviewed quarterly by the Chapter board members.

Return to: Kids in Native Gardens Grant Program, 618 Crystal Court, Woodland, California 95776

Kids in Native Gardens Questionnaire

1. What methods of encouragement have been used to get the teachers/principal interested in working in the garden?

2. What methods of encouragement have been used to get parents involved in the school garden?

3. What ratio of student to teacher works best in your school garden?
4. What has been the most effective method of pest/weed control?

5. Please describe a project or theme that has worked well at your school garden:

6. What did you try that sounded good, but did not work? What do you think went wrong?
